Table 3. Total Number of Developments, Town of Vermilion, 2002 - 2022

Within the last 20 years, the Town experienced the highest number of developments in 2009. The value of the developments has also increased over past years however the values for 2006 and 2009 were significantly skewed due to large multi-million-dollar developments such as the Vermilion Regional Centre in 2006 and major upgrades at the Lakeland College Campus in 2009. The values began increasing in 2014 with the start of highway commercial development in the new Junction Sixteen 41 subdivision and some large multi-family residential buildings which continued into 2015 which had the highest value ever. In 2019 the values were greatly affected with the construction of the new 19-million-dollar Sewer Treatment Plant. With the recent economic slowdown and the massive impact of COVID-19 in 2020 and still carrying on through 2022, the number and value of permits is slightly down from past years. In the past 20 years there has been an estimated total of approximately 287 million dollars in development.

New Housing

An important statistic to consider in evaluating development patterns and trends within the Town is the number of new housing starts and value of new housing. In 2022 there were 4 new single-family residential dwellings.

<i>Year</i>	<i>New Housing Starts</i>	<i>Average Value of New Housing</i>	<i>Total Value of New Housing</i>
2002	12	\$139,833	\$1,678,000

Table 4. New Housing Development Summary, Town of Vermilion, 2002 - 2022

Summary

The value of developments in 2022 was approximately \$2,297,000 which, when you disregard the 12 million dollar renovation to the Animal Sciences building at the Lakeland College and the 3.3 million dollar McDonald's restaurant in 2021, the numbers are comparable. This illustrates a positive economic trend even as the effects of COVID-19 and global political turmoil continue. Commercial and residential developments are prevailing and with the South Brennan lots dwindling down to only 1 lot remaining, additional densities of housing within the Town will be needed in the future which may facilitate the development of the North Brennan Subdivision.
